SUMMARY

I am seeking an entry-level position where I can apply my cybersecurity knowledge, problem-solving abilities, and commitment to security best practices to contribute to the protection of digital assets and the development of innovative security solutions.

EDUCATION

B.Tech. Electronics and Telecommunication |7.61 CGPA   **2020-2024**
- Government College of Engineering, Nagpur

CBSE 12th Science (PCM) |86.2%   **2019-2020**
- Jawahar Navodaya Vidyalaya, Wardha

CBSE Class 10th |82.2%   **2017-2018**
- Jawahar Navodaya Vidyalaya, Wardha

EXPERIENCE

Cybersecurity Internship   **March 2022 – April 2022**
Verzeo   Remote
- Performed VAPT on website in Lab Environment
- Used tools like Burpsuite, Dirbster, Nikto, SQLMap etc.

PROJECT

- **Google Cybersecurity Portfolio (ongoing) –** Incident Network Analyzing, OS and Network Hardening, Incident and Audit Reporting, Implementing NIST CSF etc.
- **Verzeo Cyber Security Projects –** Minor and Major project including information gathering, vulnerability assessment and pentesting in controlled environment, cryptography with Quick Stego tool
- **Internshala Cybersecurity Project –** Black box testing on site in lab environment. It includes assessing site for vulnerabilities, pentesting them and recommending possible solutions to resolve them.

CERTIFICATES

- Introduction to Cyber Security Learning Path *on* **TryHackMe**
- Pre-Security Learning Path *on* **TryHackMe**
- Machine Learning in Python *on* **Perfect eLearning**
- Ethical Hacking *on* **Internshala**

SKILLS

- **Cyber-Security**: VAPT, Threat Analysis, Networking, TCP/IP
- **Programming Languages:** Python, C
- **Security Tools & Technologies:** Burpsuite, Nikto, Dir-buster, Nmap, sqlmap, Wireshark, Havij
- **Additional Skills:** HTML, CSS, Javascript, Machine Learning, MySQL, Linux OS (CLI & GUI)
